

Seminar on restoration of windows and doors - Swedish experience

Thursday 27th February 2025 at MMAM, Polocko g. 52, Vilnius

Restoration of windows and doors is a field in building conservation that has developed since the 1980-ies in Sweden and there are more than 100 companies specializing in this profession. During this seminar a group of experts present their skills and experiences. In addition, the German company Glashütte Lamberts presents their production of mouth blown cylinder glass – a business keeping up the traditional craft of hand made window glass.

Craftsmen, contractors, architects and other professionals involved in restoration of windows and doors are invited to this seminar. Welcome!

Program (All presentations will be in English.)

9.00 **Welcome to the seminar**, Henrik Larsson, The Craft Laboratory, Gothenburg University
Welcome to Museum of Urban Wooden Architecture, Indrė Užuotaitė, head of museum
